April 30, 2007 -- FOR IMMEDIATE RELEASE

Delmhorst Instrument Co. introduces Navigator Pro

Delmhorst Instrument Co. announces the release of **Navigator Pro**, a Moisture Mapping System specifically designed for the restoration professional. **Navigator Pro** is a three-in-one moisture meter that integrates pin and pin-less moisture measurements and a thermo-hygrometer into one, fully featured meter. Two exciting innovations of **Navigator Pro** data-logging features are job grouping according to room, and the ability to store readings by location within each room (floor, ceiling, wall). Other features include full onscreen reading recall with date and time stamp, job grouping, infrared linkage to a PC or laptop, and easy to navigate menu options. **Navigator Pro incorporates a thermo-hygrometer that calculates GPP and Dew point and measures Temperature and RH.**

Specific features include:

- Three-in-one moisture meter
- Job grouping according to specific rooms
- Pin mode
 - 5-60% MC wood scale
 - 0-100 numerical reference scale
 - 0.1% - 6% sheetrock scale
- Scan Mode
 - 0-200 numerical reference scale
- Thermo-hygrometer
 - Measures temp/RH and calculates GPP and dew point
- Optional Infrared Linkage & Software application
- Carrying case

+++++

“Delmhorst Instrument Co. has manufactured moisture meters for 60 years. The Navigator series represents our commitment to providing industry specific models that meet the growing demands of the restoration contractor,” notes Paul Laurenzi, Vice President -- Sales and Marketing at Delmhorst. “We are excited about this new introduction, and are confident that industry professionals will benefit greatly from its many features.”
