

ON THE ROAD WITH DELMHORST:

Bringing Cutting Edge Moisture Meter Technology to Today's Industry Experts

The experts at Delmhorst had a busy trade show season! From water damage restoration to woodworking, Delmhorst's cutting edge moisture meters were a highlight of conventions across the country.

RESTORE

Where: New Orleans, LA
When: June 2023
Who: Restoration contractors, company owners, and technicians
What: *Attendees lauded the streamlined dashboard in the newly released BDX line of moisture meters, as well as the Bluetooth® compatibility of Delmhorst's EDGE™ App.*

SERVPRO

Where: Tampa, FL
When: June 2023
Who: SERVPRO franchisees specializing in emergency cleanup and restoration
What: *Attendees maintained loyalty to classic Delmhorst meters like the BD-2100 while embracing the technological advances and connectivity of the new BDX line.*

Association of Woodworking & Furnishing Suppliers® (AWFS®)

Where: Las Vegas, NV
When: July 2023
Who: Woodworkers ranging from furniture and cabinet makers to dry kiln and sawmill owners
What: *Attendees continue to rely on the classic J-2000 while eagerly adopting Delmhorst's newer JX-20 and EDGE™ App compatible JX-30 models. The stand alone, pinless Pro-Scan and entry-level J-Lite were also well received by woodworking professionals and enthusiasts.*

The Experience

Where: Las Vegas, NV
When: September 2023
Who: Contractors and technicians in the water damage restoration industry
What: *Attendees highlighted the critical role of Delmhorst moisture meters, particularly the BDX line with its capacity for Bluetooth® connectivity, in the water damage, cleaning, and restoration industries. They look forward to the upcoming release of Delmhorst's stand-alone thermo-hygrometer, the HTX-30.*

This season's trade show circuit gave Delmhorst the opportunity to connect with current customers and meet potential new clients from around the country – and to listen to the needs and feedback of experts in the woodworking, water damage remediation, and restoration industries.
